

Customized programs for the unique needs of Taft-Hartley plans and members

Taft-Hartley clients can count on flexible, quality service from American Health. We work to ensure that members receive appropriate care and that clients see results in our Utilization Management and Case Management programs.

Utilization Management

- URAC-accredited, flexible program includes inpatient and outpatient options and allows clients to customize their precertification requirements
- Medical necessity reviews are performed by nurses using evidence-based guidelines from MCG Health
- Automated referrals to Case Management through our proprietary medical management system, iSuite

Case Management

- URAC-accredited program provides education and resources to members and their families while generating cost savings for clients
- Dedicated teams of experienced case managers make up our specialty programs: Maternity, Neonatal and Pediatric, Oncology, and Transplant
- Case managers direct patients to in-network providers and research alternative treatment options, when appropriate

We serve over **75,000 members** with Taft-Hartley plans across the country

- Product Highlights -
