

## Maximizing cost savings and quality assurance for imaging procedures

The combination of American Health's precertification services and US Imaging's in-network facilities provides clients with cost savings and quality assurance with every member experience. Advanced Radiology Scheduling Services generates out-of-pocket savings for members and an **average of 36% savings for clients**. Members who are in need of MRI, CT or PET scans have access to a network of 2,400 state-of-the-art facilities.

Once a radiology procedure is precertified with American Health, the member receives a call within 48 hours to schedule an appointment at a convenient time and location. The VIP concierge services provide education on the upcoming procedure, appointment reminders and follow-up calls, creating peace of mind for members. In addition, American Health and US Imaging coordinate with the referring physician and imaging facility to ensure quality and a positive member experience.

When given the choice, **90% of members or referring physicians** will use a US Imaging facility.
